

ADNAM'S SSB & BROADSIDE

World Classic English Ales

Shelton Brothers is pleased to announce the return of two award-winning beers from one of England's oldest and most respected breweries. Despite its rich heritage and enduring fame, however, Adnams is not a company willing to rest on its laurels. Its continued commitment to quality and innovative packaging designs has made it Britain's fastest growing brewery over the last two years. To top it off, Adnams' head brewer was recently chosen as Britain's *Brewer of the Year* by a panel of his peers. The aggressive team at Adnams is raring to go and keen to make a mark in the U.S.

Adnams Suffolk Special Bitter, at 4.7 % alcohol by volume, is a dry, crisp, refreshing, and distinctly hoppy example of its style.

Adnams Broadside is a strong dark ale, full of both malt and hops. It was recently awarded the gold medal in the Strong Bitter category at the 2003 Great British Beer Festival.

Adnams beers are available in cases of 12 bottles x 500 ml. Look for six-packs and casks soon.
